Prime School International**

SKILLS

Unity 2D & 3D

C#

JavaScript,NodeJS
MySQL

Python

Microsoft Office
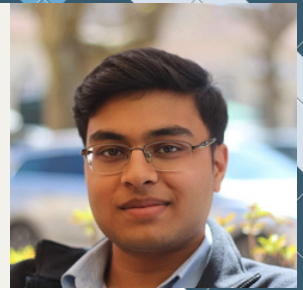

ABOUT ME

My name is Sheehan Sunil, I'm 23, from Pakistan and have been living in Portugal for 9 years. I have a Bachelors degree in Games Development (Computer Science) at IADE - Creative University.

I'm also currently enrolled in the "Foundational C#" course certified by Microsoft.

All the university projects I've worked on were group projects, hence I am comfortable working in teams and also individually when necessary.

MY PROJECTS

Not Dead Enough
A multiplayer 3D zombie shooter, developed in Unreal Engine 4 using C++ and blueprints, where the players must survive waves of zombies.

Star Grazer
A 2D management/browser game about exploring space and expanding your space base made with NodeJS, JavaScript and MySQL.

Cyber Colosseum
A sci-fi 2D action shooter where you play as a prototype robot being tested for its combat capabilities. Made in Unity using C#.

System Overhaul
A 3rd person shooter set in a dystopian future in another world where you have taken back control over your mind and are now helping others do the same. Made in Unity using C#.
